We're cozy in this Grand Lake cabin

Big flakes are falling outside the door

C/A D G E7

We're gonna go through a yule log or two

Nothing left to do but get to know you more

G C/A G/B C2

My favorite place to get snowed in

B7 Em G7

It looks like you're loving it too

C D G E7

All I can do now is settle on down

C/A D G

To winter in the mountains with you

Soon the sun lights the white snow blanket

We smile and folks smiling right back

Spend the morning skatin', lazy figure-eight'n

Afternoon making ski tracks

Hot cocoa strolling the local shops

Holiday lights shining through

No place I've found beats this little town

For winter in the mountains with you

B7

I spend my days

Em

Hoping this will never end

A7

You make this place

D7

A mystic winter wonderland I can't forget

I have to say from my perspective

Nothing beats this beautiful view

I'll never head south as long as you're around

I'll spend winter in the mountains with you
